

YOUR CHANCE TO SHAPE NORTHERN IRELAND CENTRAL GOVERNMENT ENERGY AND CARBON CONTRACTS

The Energy Management Strategy for the Northern Ireland Government was published in March 2019 and has two key objectives:

1.

**30% by
2030**

Lower net energy consumption by 30% by 2030 across Government (compared to 2016/17)

2.

Establish effective energy management processes that unlock value

To achieve the **Energy Management Strategy** and build a strong platform for delivering the energy transformation by 2050, the Strategic Investment Board (SIB), on behalf of the Northern Ireland Government, are conducting a request for information (RFI).

SIB are asking market providers how they could help the Northern Ireland central government achieve the following strategic goals, if provided access to the Northern Ireland central government estate through partnering arrangements, concessions or licencing arrangements:

Reduce energy consumption

Reduce energy costs

Increase the adoption of renewables

Reduce carbon emissions

Offset or capture carbon emissions

Generate revenue receipts for government

Technologies, practices or commercial arrangements that incorporate any of the following will be of interest to the government client as well as professional advisers to support the development and delivery of initiatives to achieve the strategic goals:

- Generation of energy
- Power purchase agreements and CfDs
- Storage of energy
- Regulation / smoothing of demand
- Electric vehicle solutions
- Carbon sequestration or offsetting
- Revenue generation from AGU, DSU, DS3
- New forms of commercial arrangements (EPCs, ESCOs, PPPs etc)
- New forms of procurement practice
- Alternative funding arrangements for projects
- Professional services (legal, technical, procurement, commercial)

To participate, please register with eTendersNI and monitor the opportunities list for:

project ID 3571945 - TEO Strategic Investment Board Request for Information: Energy, Renewables and Carbon Pre-market Engagement.

This RFI will give providers an opportunity to showcase their products and services to the Northern Ireland central government and to help shape future tenders to purchase products and services.
